In it alone is vested power to establish subordinate Unions of stereotypers and electrotypers, and its mandates must be obeyed at all times and under all circumstances. To the International Stereotypers' and Electrotypers' Union of North America is reserved the right to fix, regulate, and determine all matters, pertaining to fellowship in all branches of stereotyping and electrotyping, while to subordinate Unions is conceded the right to make all necessary laws for local government which do not conflict with the laws of the International Union.

Sect. 2. A charter may be issued to five or more stereotypers, electrotype finishers, or electrotypers, either separately or together.

Sect 3. All stereotypers, electrotype finishers, or electrotypers must deposit their cards with, and all applications must be made to, the nearest Union of their craft, for membership in this Union, and they shall abide by the Constitution and By-Laws of the Union to which they are attached; and said members shall be required to assist and take part in strikes, when legally ordered by local Unions.

Sect. 4. The officers of the International Stereotypers' and Electrotypers' Union have the right to withhold a charter, if in their judgment they have reason to believe the organization will not be permanent, and refer such action to the next session of the International Stereotypers' and Electrotypers' Union for its action in the premises.

No ballot shall be used at such elections except those issued by the officers of this body, except in cases where Unions receive no official ballots.

Sect. 6. Elections shall be held during

the month of October, subordinate Unions to designate the time and place or places where such elections shall be held.

Provided, that if those charged with the conduct of the election, by a subordinate Union or any of them, have reason to believe that a member has voted under the jurisdiction of a sister Union, or any member challenges his right to vote on account of his having exercised that right previously, he shall be permitted to vote on signing the following: "I hereby declare, on my honor as a man, that I have not voted for International Stereotypers' and Electrotypers' Union officers at this election, and I make this declaration with a full knowledge of the fact that misrepresentation renders me liable to discipline."

Immediately on returning to the business the holder shall deposit same and be immediately placed on the active list.

Sect. 7. A member of a subordinate Union working regularly at the business cannot demand the right of withdrawing from the Union on the plea of economizing expenses or of inability to pay his dues; and the Union, in such a case, is justified in refusing a card.

Those approved by a majority of the delegates shall then be submitted to all the Unions under the jurisdiction of this Union without any additional comments or explanatory note. Each member of a subordinate Union shall have the right to vote on any amendment, and the result shall be reported in detail by the Secretary of each subordinate Union to the Secretary-Treasurer not later than November 15. In presentation of any amendment providing for the elimination, modification, or extension of any statute, the *existing* law shall be given verbatim and precede the form of law as amended, and this same method shall apply in submission to referendum of all amendments.

Sect. 3. All propositions to amend or change the Constitution or By-Laws must be so sub-divided, when the sense will permit, as to preclude the possibility of one clause which is objectionable defeating another which might be considered desirable legislation.

Sect. 4. Any subordinate Union shall have the right to submit in writing amendments to the Constitution or General Laws of this Union, and if such amendments are supported in writing by fifty members of the International Stereotypers' and Electrotypers' Union (provided that not more than fifteen members of any one local Union shall sign), the Secretary-Treasurer shall immediately have such amendments print-

With this object and ultimate end in view, foremen, and the membership in general, are expected to co-operate.

Sect. 2. No funeral benefit claim shall be allowed, unless the deceased was possessed of a current Working Card at the time of his death, nor shall a funeral benefit claim be allowed if, at the time of death, the Union of which deceased was a member was in arrears to the International Union for per capita tax.

Sect. 3. In case of the decease of a member holding a Certificate of Membership, the President and Secretary of the nearest Union shall act in the premises.

ARTICLE XXIV.

ARTICLE XXV.

NEW LAWS.

Section 1. All new laws of the International Stereotypers' and Electrotypers' Union, unless otherwise provided for, shall be in full force and effect on and after the first day of January succeeding the adjournment of each convention.

ARTICLE XXVI.

CONFLICTING LAWS.

Section. 1. All laws or parts of laws conflicting with this Constitution are hereby declared null and void.

GENERAL LAWS.

Membership.

Section 1. No Union shall admit as a member any person who comes from a place where a Union existed at the time of his leaving, unless he can produce a duly attested Certificate of Membership from said Union; and any person admitted by such certificate shall be exempt from the usual initiation fee. Provided, however, that an applicant for membership without a certificate may be admitted by obtaining the permission of the Union in the place which he has left. Any subordinate Union violating this law shall be liable to a fine of \$25.

No Union shall admit as a member any person who has been expelled by another Union, without the written official consent of the Union by which such person was expelled, nor then if the person applying for membership has had his application for membership rejected by the Union which expelled him, within a period of six months previous to making such application to the other Union. Membership obtained contrary to the above provisions of this section shall be

null and void, and it shall be the duty of the Executive Board of this International Union, whenever such action on the part of a local Union is called to its attention, to issue an order revoking such illegal membership, together with any certificate of membership which may have been illegally issued to such person, provided, however, that the Executive Board shall have the right at all times of taking up a grievance arising under this section, either by appeal or on its own motion, and its decision shall be final, saving only the right of appeal of the aggrieved party to the Convention.

Sect. 2. Members in good standing who are desirous of leaving the jurisdiction of the Union to which they belong shall be entitled to receive the International Stereotypers' and Electrotypers' Union Certificate, which shall be furnished upon the payment of the current month's dues; and any member receiving such certificate shall deposit the same with the proper Union officer when accepting work within the jurisdiction of any Union subordinate to the International Stereotypers' and Electrotypers' Union. (See Section 3.) Any member neglecting his duty, as pre-

scribed in this section, shall be regarded as a delinquent, and upon re-admission into any subordinate Union shall be required to pay the usual initiation fee.

Sect. 3. A member of a Union going into the jurisdiction of a sister Union must deposit his card. (See Section 2.) Where the deposited travelling card shows the International Stereotypers' and Electrotypers' Union per capita tax for the current month is paid, a sum equal to the same shall be deducted in charging dues for that month.

Sect. 4. An applicant for membership, working under permit pending final action on his case, is entitled to work in Union offices and receive the same recognition as members of the Union, and he shall not be allowed to withdraw his application upon which a permit has been granted, but must await the action of the Union. When an applicant for membership or reinstatement is once rejected in a subordinate Union he cannot again make a new application to any Union for the space of six months.

Sect. 5. Members employed under permit in non-union offices cannot engage in a strike ordered by any other body than the Union they belong to.

A regular holding a situation in one office must not accept casual employment in another to the detriment of substitutes.

Certificate of Membership.

Sect. 6. It is competent for the Secretary or other authorized officer of a subordinate Union to receive the Certificate of Membership at any time, if the card be clear and within date and no charges are pending against the holder. Membership in said Union shall date from time of said reception.

Sect. 7. The International Stereotypers' and Electrotypers' Union cards must be received (if within date), notwithstanding the fact that charges may be pending in a sister Union against an officer of the Union issuing the same. Provided, such charges were not made known to said Union previous to the issue of said card.

Sect. 8. When a member loses his Certificate of Membership, it is the duty of the Union from which he received it to issue him another one. Provided, he has not worked in the jurisdiction of any other subordinate Union before making his loss known and receiving its permission to work, and there are no charges

or objections made against him either by the Union from which his card was first issued, or that in whose jurisdiction he desires to go to work, and his original card had not expired before he made his loss known.

Sect. 9. The fact of a change of officers of the International Stereotypers' and Electrotypers' Union does not invalidate a clear card, within date, signed by a former officer, but all certificates issued and received must be in form as specified in Art. XIV., Sec. 2. This form being good until used. Provided, the Union remains in existence as a part of this organization.

Sect. 10. Certificates of Membership of a body of stereotypers or electrotypers where a charter has been revoked by this Union will not be honored by local Unions pending an appeal to the next session. The decision of the International Stereotypers' and Electrotypers' Union is final and binding, and must be abided by until reversed by a future convention.

Sect. 11. Where a member has lost his card, and the Union which issued it refuses to renew it, the Executive Board of the International Stereotypers' and Electrotypers' Union have the power to

grant him one over their signatures. Provided, such member has not forfeited his right to a card by anti-union conduct.

Sect. 12. All Certificates of Membership issued by subordinate Unions must have the seal of the Union issuing it stamped thereon.

Sect. 13. A member on depositing his card shall not be subject to an assessment levied for the payment of debts incurred by a local Union previous to the depositing of such card.

Sect. 14. All signatures, dates and names to Certificates of Membership, when issued, shall be in ink.

Sect. 15. In the event of a member who has received a travelling card from one subordinate Union and has deposited same with another, returning to the jurisdiction of the Union issuing the card, it shall be compulsory for the last mentioned Union to receive satisfactory evidence of the good standing of such member in the Union where such card was deposited before re-admitting him to membership.

Sect. 16. Secretaries of subordinate Unions, when issuing a travelling card, shall require the member to place in the blank for that purpose his (the mem-

ber's) signature in the presence of the Secretary, and the Secretary receiving a travelling card shall require the holder to sign his name on a piece of paper for comparison, and should there be a discrepancy, the Secretary shall take up the card pending investigation. Any violation of this section shall be punished by a fine of \$5. Provided, this shall not apply to cards forwarded by mail.

Sect. 17. A subordinate Union shall not issue a travelling card to a member against whom charges are pending.

Renewals.

Sect. 18. Travelling cards may be renewed if presented for renewal any time within three months after the date of issue. Provided, the application for renewal be accompanied by satisfactory evidence that the applicant has not in the meantime been guilty of anti-union conduct. Should the Union issuing such card have in the meantime ceased to exist, it is the right of the Union man holding such card to have it accepted by any subordinate Union on his showing to the satisfaction of such Union that his record has been a clear one since the date of issue of such card.

Apprentices.

Sect. 19. It is enjoined upon each subordinate Union to make regulations limiting the number of apprentices to be employed in each office to one for such number of journeymen as to the Union may seem just.

No subordinate Union shall admit to membership any person who has not served an apprenticeship of at least five years.

An apprentice at stereotyping or electrotyping must make application for membership to the Union having jurisdiction over the office in which he serves his apprenticeship.

Where an apprentice has intermittent employment, local Unions shall require affidavit from applicant regarding time of service, such affidavits to be on file and authenticated before favorable action shall be taken on said apprentice's application for membership.

It shall be mandatory upon every chairman of chapel to register apprentices with the secretary of his local union and with the Secretary-Treasurer of the I. S. & E. U., within thirty days after employment.

In the event of such registered ap-

prentice losing his position through no fault of his own (which fact is to be determined by the local within whose jurisdiction he has been employed) he shall be eligible to the first apprentice vacancy occurring to complete his unexpired term of apprenticeship.

Apprentices in any office under the jurisdiction of the International Stereotypers' and Electrotypers' Union shall not be permitted to work more than six day or night shifts within one week.

Provided, That the Executive Board shall be authorized to permit an apprentice to work more than six days or nights when in their judgment conditions would warrant the same.

Appeals.

Sect. 20. Any member of a subordinate Union feeling that injustice has been done him by his Union may appeal his case in the manner provided for in Article VIII. of the Constitution. Provided, that notice of intention to appeal be filed with the proper officers of the subordinate Union within five days, and that appellant serves copies of all testimony and argument upon said officials within thirty days after the trial court has rendered its decision, and respon-

dent shall reply thereto within a like period. Provided, further, that the President of this Union may grant a further extension to either party if, in his opinion, the ends of justice will be subserved thereby.

Sect. 21. All parties to an appeal to this Union in cases where documents are to be submitted to the officers of the Union, are required to go before a notary public and make affidavit to the truth of their statements. Appellant and respondent shall furnish copies of papers in complete form to each other, and shall be entitled to submit replies to these original articles, in appeals to the convention the same procedure shall be followed.

Sect. 22. In cases of appeal against the action of a subordinate Union, its decision must be complied with in the interim. Provided, that should a verdict of reprimand or censure be adopted, it shall not be enforced against the convicted prior to the decision of an appeal, in case such an appeal be taken, in case notice of appeal is given within five days; and in all cases involving a demand for fines, dues and assessments, or other moneys, the amount in dispute must be placed in the hands of the President of

the subordinate Union, to be held by him until the appeal has been finally decided. Provided, further, that the President and Executive Board of the International Stereotypers' and Electrotypers' Union may, upon a satisfactory showing being made by the aggrieved party, issue a temporary order, holding a final decision in abeyance until such time as a full hearing can be obtained before the appellate court.

Charges.

Sect. 23. When a Union arraigns a member on any cause without its jurisdiction, and the party so arraigned has formerly been in good standing with the craft, it is the duty of said Union to give him official notification of the fact, and allow him the privilege of defending himself in open meeting.

Sect. 24. When a subordinate Union is cognizant of the performance of a disreputable act on the part of a member not working within its jurisdiction, whether such act was committed within its jurisdiction or not, it is its duty to prefer charges against him before the Union under whose jurisdiction he does work.

Charters.

Sect. 25. In all applications for charters no other name shall be recognized than that of the city or town in which the Union is located as the name of said Union.

Sect. 26. A majority of a Union cannot by vote surrender its charter. Charters being granted to five members, a Union cannot be dissolved while there are that number in good standing willing to retain the charter.

Sect. 27. A subordinate Union has not the right to erase the names of charter members (who may have ceased to be Union men from any cause) from their charters and substitute others in their places. The charters (as to names) must remain as issued by the Union. There is nothing, however, to prevent a Union attaching to such charter a sketch of the delinquency or degeneracy of any party whose name appears thereon as a charter member.

Sect. 28. It is competent for a subordinate Union to take a charter from any State within which it may be located, in order to protect itself in the possession of property and other legal rights, but the charter of this Union is supreme

and governs in all craft matters where it does not conflict with the laws of the State or nation.

Foremen.

Sect. 29. Where it is in the power of a foreman or assistant foreman to employ help of the allied trades and he shall employ a non-union man in preference to a Union man, he shall be fined not less than \$5 nor more than \$25, and on the second offence he shall be subject to suspension or expulsion.

Sect. 30. It shall be a misdemeanor, punishable by expulsion, for one Union man to make application for the position of another Union man in any office. Foremen of offices have the right to employ journeymen or apprentices, providing, however, that there is no apprentice duly registered for two years unemployed, and may discharge (1) for incompetency, (2) for neglect of duty, (3) for violation of office rules (which shall be conspicuously posted), and (4) to decrease the force, such decrease in offices to be accomplished by discharging, first the person or persons last employed, either as regular employees or extra employees as the exigencies of

the matter require. No incoming foreman shall discharge any journeyman for the express purpose of reorganizing his force. Should there be an increase in the force within sixty (60) days after a decrease the person or persons displaced through such cause shall be reinstated in the reverse order in which they were discharged before other help may be employed. Upon demand, foreman shall give the reason of discharge in writing. Persons considered capable as substitutes by foreman shall be deemed competent to fill regular situations. This section shall apply to incoming as well as outgoing foremen.

Provided, however, that no journeyman member of any chapel coming under the jurisdiction of the I S. & E. U. shall, because of his selection as assistant foreman, lose the rating held by him as a journeyman, previous to his promotion, and reduction of forces shall be conducted in strict conformity with this provision.

Sect. 31. Foremen shall not designate any particular day or how many days a man shall work in one week.

Sect. 32. No foreman shall have the right to discharge or discipline a regular for putting on an incompetent "sub,"

provided, the foreman has not notified the regular of the "sub's" incompetency.

Sect. 33. No foreman shall be privileged to debar any member holding a paid-up journeyman's current working card, from employment in any office, except by consent of his local union.

Sect. 34. Where the scale of prices of a subordinate Union does not provide an established rate of wages for foreman and assistant foreman, a stereotyper or an electrotyper applying for or accepting the situation of any foreman or assistant foreman within its jurisdiction, at a less rate of wages than the then foreman or assistant foreman is receiving, shall be deemed unfair, and if a Union member, shall be expelled from the Union of which he is a member.

Sect. 35. No member of a local Union working under the jurisdiction of the I. S. & E. U. shall take charge of any stereotype or electrotype foundry with a less number of members of this Union than has been employed by his predecessor unless such reduction is properly accounted for to the entire satisfaction of a majority of the members of his Union at a special or regular meeting. Any violation of this law shall be pun-

ishable by a fine not less than one hundred (\$100) dollars.

Sect. 36. A foreman or superintendent of a newspaper stereotyping department cannot transfer a member of any local union from a morning edition to an evening edition, or vice versa, in any office, unless agreed to by the member affected, and with the consent of the local union. Provided, however, that nothing herein contained shall affect the rating of members as defined by local Union laws.

Duties and Rights of Subordinate Unions.

Sect. 37. Secretaries of subordinate Unions are required to furnish the Secretary-Treasurer the names of all applicants for admission who have been known to or are suspected of having worked under the jurisdiction of a sister Union or about whose antecedents there is the least doubt, and no such applicant shall be received into membership until twenty days after the date of such publication; organizers are also required to send the said International Stereotypers' and Electrotypers' Union official for publication the names and

addresses of all applicants for membership. Provided, so much of this provision as applies to subordinate Unions shall not be operative during the progress of a strike or during the life of amnesty declared in accordance with the requirements of the laws of this body.

Sect. 38. All correspondence between subordinate Unions as to character, etc., of applicants for membership, and all other business of like nature, shall be conducted in sealed envelopes.

Sect. 39. Local Secretaries shall answer every communication received by them from International or local Unions.

Sect. 40. It shall be the duty of Presidents of subordinate Unions to report to the President of the International Stereotypers' and Electrotypers' Union all violations of the laws of the International Stereotypers' and Electrotypers' Union occurring within their jurisdiction.

Sect. 41. Members of subordinate Unions shall not leave situations in remote places without first notifying the Union of such intention and trying to place a Union man in such situation.

Sect. 42. A Union has the right to

demand arrears in the matter of dues, assessments, and payments of all indebtedness before granting a Certificate of Membership, although other members may not have been compelled to pay up.

Sect. 43. No subordinate Union shall admit to membership any person who has not served an apprenticeship of at least five years. It shall be mandatory upon every affiliated local not to admit to journeyman membership any apprentice unless his competency has been proved by a most rigid examination, consisting of a practical mechanical test.

Sect. 44. Subordinate Unions, acting in conjunction with the Executive Board, have a right to declare a general amnesty for a set period to non-union men working in the territory under their jurisdiction.

Sect. 45. It shall be mandatory upon every Union to immediately establish a minimum scale of wages, such scale to be put into effect as soon as possible; but before any new or amended scale is adopted by the Union it shall be submitted to each publisher or employer interested and conciliatory endeavors taken to secure his consent. Classification of members employed in stereotype departments will not be permitted.

Members of a subordinate Union, even though they constitute a majority of such Union, have no right in chapel meeting to take any action amending, suspending, or in any way affecting the laws or contracts of such Union.

Sect. 46. All Unions under the jurisdiction of the International Stereotypers' and Electrotypers' Union shall furnish a copy of their Constitution and By-Laws and adopted and established Scale of Wages to the Secretary-Treasurer, who shall arrange same alphabetically and have wage-scale and conditions printed and furnish each local with a copy of same annually. Any local Secretary failing to promptly forward the required information shall be subject to such discipline as the International Executive Board may elect.

Sect. 47. The International Stereotypers' and Electrotypers' Union hereby indorses all Union labels, and requests its members to purchase only goods marked with a Union label when such goods are obtainable.

Sect. 48. It shall be mandatory upon all subordinate Unions to recognize and observe the respective jurisdictional rights of Stereotypers and Electrotypers by prohibiting their members from in-

fringing or transgressing upon such rights by engaging in work, not strictly appertaining to their particular craft or branch, unless the consent of the Union affected has been secured.

Discipline.

Sect. 49. Members of subordinate Unions may be disciplined for violation of International Stereotypers' and Electrotypers' Union law. Charges against members shall be presented in writing, and a copy of the charges shall be furnished the accused.

Delegates.

Sect. 50. No delegate shall be entitled to vote in the convention of the International Stereotypers' and Electrotypers' Union whose Union has not previously paid over to the proper officers the per capita tax and all indebtedness of his Union.

Seal.

Sect. 51. It is enjoined upon each subordinate Union to have a suitable seal engraved, to authenticate all documents.

"Ratting."

Sect. 52. A member of a Union engaging to take a situation in the juris-

diction of another Union at a lower rate of wages than the scale of prices of the latter Union calls for, and failing from any cause to obtain the same, is guilty of "ratting."

Working Hours.

Sect. 53. Pooling of hours shall be and is prohibited. (Pooling of hours shall be construed to mean the practice of working fewer hours than the scale calls for on certain days, giving the time saved to another day when the work necessitates additional time, such to be given to the office before overtime is charged. Provided, that when the scale calls for a six or seven hour day for certain days, and an eight or nine hour day for others, this shall not be considered the pooling of hours.)

Sect. 54. All electrotype foundries doing stereotyping to the extent of one day (eight hours) or more per week shall employ a Union stereotyper for this work.

Dues and Assessments.

Sect. 55. Each subordinate Union shall pay into the treasury of the International Stereotypers' and Electro-

typers' Union the per capita tax and all assessments collected or levied by the International Stereotypers' and Electrotypers' Union, the same to be forwarded to the Secretary-Treasurer of the International Stereotypers' and Electrotypers' Union as soon after its receipt as is practicable.

Local Secretaries shall fill out and attest the regular monthly report sent them by the International Secretary-Treasurer. They shall forward same to the office of the International Secretary-Treasurer not later than the 15th of each month. Failure to forward such report within the time stipulated shall be referred to the International Executive Board, they to have the power to fine, reprimand or censure.

No punishment may be inflicted or penalty enforced until after due trial in accordance with local and International law. Charges

against a member must be made in writing by a member, and may be presented to the president of the local Union at any time, who shall forthwith appoint a committee of three or more to examine the case. Said committee shall notify the parties and their witnesses of the time, place and object of sitting. Both parties shall have the right of counsel, who shall be members of the Union. At the demand of either party witnesses shall be sworn by a notary public. If either party fail to appear (unless excused for cause shown) the inquiry shall proceed, and the committee shall at the next stated meeting report the evidence and its judgment on the case.

2d. If the charges be sustained in whole or in part, the accused shall have the privilege of defence before the Union, after which the Secretary shall read the judgment of the committee and the President shall submit it to a vote of the Union. If sustained the presiding officer shall pronounce the sentence agreed on. Punishment other than that recommended by the committee may be substituted by the Union.

3d. The evidence of "Rats" shall not be received in the trial of Union men.

4th. Evidence from the books and bookkeeper of an office should be considered good evidence on the trial of a Union man for violation of scale, unless surrounding circumstances or Union evidence in rebuttal weakens or destroys it.

5th. No evidence shall be considered by the examining committee except such as shall be offered at a regular hearing of the committee.

Sect. 57. Any member or members of any subordinate union circulating or causing to be circulated in any way malicious or untrue statements reflecting upon the standing or character, private or public, of any officer or member of the International Stereotypers' and Electrotypers' Union, shall be deemed guilty of un-unionlike conduct, and upon conviction before a trial board shall be fined not less than ten (10) dollars nor more than fifty (50) dollars, as two-thirds of the members may determine. It shall be the duty of the Executive Committee of each subordinate Union to investigate and prosecute all violations of this law occurring within its jurisdiction. It shall also be the duty, and it is hereby imperatively ordered, that any subordinate Union, or any member of a subordinate Union, shall

prefer charges before the proper authorities against all violators of this Section.

Sect. 61. Local Unions may create a special scale for stereotypers or electrotypers employed at the craft beyond the boundary line of the city or town wherein such Union is chartered, providing such action be deemed necessary and meets with the approval of the local Union having jurisdiction in conjunction with the sanction of the International Executive Board.

WOMAN'S AUXILIARY.

Sect. 62. Seven or more ladies securing the endorsement of the I. S. and E. U. local Union or Unions of their city, may apply to International Secretary-Treasurer for the issuance of a charter, upon the payment of a sum not to exceed two dollars (\$2.00), said service to continue until taken up by and through the formation of an International Woman's Auxiliary, and it is further provided, that such local Woman's Auxiliaries shall receive no benefits other than the moral support of the I. S. and E. U. locals.

Journal.

Sect. 63. The International Stereotypers' and Electrotypers' Union Journal shall be published monthly, to be issued on the first day of each month, and shall contain the reports of the International officers, official orders, applications for membership, rejections, suspensions, expulsions, reinstatements, charters granted, charters suspended and the causes, a list of the names and addresses of corresponding and financial secretaries, of subordinate Unions, state of trade, advertisements meeting the ap-

proval of the Executive Board, and such other matter as may be of interest and importance to the stereotyping and electrotyping craft in general.

The management of the official journal shall be under the direct control of an Editor, selected and elected as provided in Article IV. of the International Constitution, but in order to qualify for the position he cannot hold any other International position. He shall at all times be under the control of the International Executive Board. He shall furnish advance proofs of each issue ten (10) days previous to the publication of same to each member of the Executive Board, and upon any question arising concerning the issue or withholding of any article a majority of the Board shall decide.

Sect. 64. The editor shall mail monthly a copy of the Journal to each member who subscribes thereto as provided for by Section 3, Article IX of the Constitution. The Secretaries of local Unions must furnish the editor with the home address of all members of the I. S. and E. U. in good standing.

In consideration of his services the editor shall receive a salary of \$300 per annum.

DEFENCE FUND, STRIKES AND LOCKOUTS.

Sect. 65. In the event of a disagreement between a subordinate Union and an employer, which, in the opinion of the local Union, may result in a strike, such Union shall notify the President, who shall repair in person or by proxy to the place where said Union is located, investigate the cause of the disagreement, and endeavor to adjust the difficulty. If his efforts should prove futile, he shall notify the Executive Board of all the circumstances, and if a majority of said Board shall decide that a strike is necessary, said Union may be authorized to order a strike; and it is imperatively ordered that no strike or lockout shall be deemed legal, or moneys expended from the defence fund on that account, unless the strike or lockout shall have been authorized or recognized by the Executive Board.

Sect. 66. When a strike has been authorized by the Executive Board, the President of the subordinate Union interested shall, within twenty-four hours,

call a meeting of said Union (of which all members shall be constitutionally notified) to take action thereon, and no member shall vote on such question unless he is in good standing and has belonged to said subordinate Union at least six months. Should three-fourths of the members present decide in favor of a strike, the President of the subordinate Union shall immediately notify the Executive Board that a strike has been inaugurated and the number of men involved (Union and non-Union).

Sect. 67. When a strike has been inaugurated under the provisions of Sections 64 and 65, the Executive Board shall pay to the order of the President and Secretary of the Union involved, for a period of eight weeks, an amount equal to \$7 per week for each married man and \$5 per week for each single man entitled thereto.

Sect. 68. No member of a subordinate Union on strike shall be entitled to the weekly benefit unless he reports daily to the proper officer of the subordinate Union while the strike continues, and no member who shall receive a week's work (four days to be considered a week) shall receive benefits; any member refusing

work while out on strike shall be debarred from all benefits under this law.

Sect. 69. Any Union inaugurating a strike without the approval of the Executive Board shall receive no benefits on account of said strike. Provided, that if a strike, lockout, or reduction of wages be forced on a Union without an opportunity to carry out the provisions of Section 64 said Union shall be entitled to the full privileges of the defence fund.

Sect. 70. No strike shall be inaugurated by a subordinate Union prior to at least one year after the issuance of its charter.

Sect. 71. When there shall have been a strike ordered in accordance with the laws of the International Union, all Union men shall be deemed to have been notified. In case of a strike involving one-third of the membership of a Union, said Union may refuse to receive cards for a period not exceeding three months, or, with the consent of the International President, six months. With this exception no Union shall decline to receive a valid travelling card under any circumstances.

Sect. 72. All moneys received by a Union from the Executive Board shall only be used in supporting men on a

strike or lockout, in assisting their removal to other cities, paying the necessary expenses of the Executive Board, and prosecuting strikes in such a manner as the Union interested and the Executive Board shall deem necessary. Provided, the limit of times for which benefits may be paid in cases of strikes or lockouts shall not exceed eight weeks. Provided, further, that where a member who is on strike or lockout receives four weeks' continuous work, his name shall not again be restored to the list of those entitled to benefits.

Sect. 73. During the continuance of a strike the Executive Board of a subordinate Union shall make weekly reports to the Secretary-Treasurer of the International Union, showing the amount of money distributed for benefits, number of beneficiaries, heads of families and single persons, Union or non-Union, and all other facts that may be required. All moneys from the International Union defence fund remaining unused by the local Union shall be returned to the Executive Board.

Sect. 74. To affect Union men prejudicially to their standing in the Union who remain at work in an office where any number of the Union men in such

office have struck work on what they deem good grounds for such action, the strike must have been authorized in accordance with Sections 64 and 65 of this law. Unless so ordered, those remaining in the office are not liable to charges of violation of any Union laws by remaining at work.

Sect. 75. A member of a Union cannot go into the jurisdiction of a sister Union and take the place of a man on strike for wages without being liable to arraignment and penalty.

Sect. 76. It is contrary to Union principles for any person holding an International Certificate of Membership to go to work in a town or city where no Union exists during the progress of a strike without the consent of the parties engaged in such strike, and the Union issuing such certificate has the power, upon sufficient proof being furnished, to revoke the same and publish the holder thereof as an unfair man.

Sect. 77. In the event of a general strike in any city or town where several offices are involved no Union force of men shall refuse to work for a proprietor who agrees to pay the scale. Provided, they have the consent of the local Union.

Sect. 78. It shall be compulsory on the part of any subordinate Union anticipating trouble, sending out notices by telegraph "to keep away from the jurisdiction pending such trouble" to follow same up with a letter of explanation at once and as soon as the controversy is settled, to notify Unions of that fact.

Sect. 79. That members offered positions in other cities shall first ascertain from the President or Secretary of the local Union from within whose jurisdiction the offer comes, the conditions existing therein before accepting. But this shall not be construed to mean that any local Union, where strike conditions do not exist shall be allowed to refuse traveling cards.

DECISION.

Six-Day Law.

The enactment of Article XXI of Constitution (Six-Day Law), inaugurated and legally established within the jurisdiction of the International Stereotypers' and Electrotypers' Union, situations consisting of six days or six nights a week.

Previous to the passage of this Six-Day Law (unless a local Union law existed to the contrary), a member holding a situation on a newspaper, published either seven days or nights each week, controlled and could work and control seven days' or nights' work in each week; but on and after January 1st, 1905, when this Six-Day Law became effective, a member, although still employed upon a newspaper published either seven days or nights each week, controlled and could only work and control six days' or nights' work in each week, he had no control whatever over the seventh day or night.

It is the duty, right, and privilege of foremen of newspapers, published seven

days or nights each week, to employ sufficient extra men to make it possible for each journeyman, employed on such seven-day or night newspaper, to hold a situation to consist of only six days or nights each week.

AGREEMENT .

BETWEEN

The International Typographical Union, The International Printing Pressmen's and Assistants' Union, The International Brotherhood of Bookbinders', the International Stereotypers' and Electrotypers' Union, and the International Photo-Engravers' Union.

The duly authorized representatives of the I. T. U., the I. P. P. and A. U., the I. B. of B., and the I. S. and E. U., and the I. Photo-Eng. Union, for the purpose of more clearly defining their obligations to each other, the powers of local Allied Printing Trades Councils, and for the further purpose of avoiding disputes and securing the harmonious co-operation of all local Unions in joint defensive action and label agitation, do hereby agree:

Joint Conference Board.

1. For the purposes of this agreement, a Joint Conference Board shall be created as follows: Four representa-

tives from the I. T. U., one representative from the I. P. P. and A. U., one representative from the I. B. of B., one representative from the I. S. and E. U. and one from the Int. Photo-Eng. Union.

2. The Joint Conference Board may adopt such rules of procedure in the hearing of appeals and the conduct of other business that may properly come before it as do not conflict with this agreement or the laws of any of the organizations, parties hereto.

3. The officers of the Joint Conference Board shall be a President, a Vice-President, a Secretary-Treasurer, and such other officers as the Board may determine, but no two executive officers shall be chosen from one organization.

4. Regular meetings of the Joint Conference Board shall be held on the first Monday in November, March and July of each year, at the place decided upon by a majority vote of the Board. At the regular meeting in November officers shall be nominated, elected and installed for the ensuing year. Any vacancies occurring during the year shall be filled by a majority vote of the Joint Conference Board at the first meeting after such vacancy occurs.

5. On demand of a majority of the organizations that constitute this Joint Conference Board, the President shall call a meeting at a convenient time and place.

6. In the event of any member of the Joint Conference Board being unable to attend a meeting, such member shall be privileged to delegate his power and authority to a proxy, who, upon the filing of properly attested credentials to the Joint Conference Board, shall be accorded all rights and privileges due the organization he represents, under the terms of the joint agreement. Should any member or members of the Joint Conference Board fail to attend a regularly authorized meeting, either in person or by proxy, the Joint Conference Board shall proceed to transact its business in the same manner as though all representatives were present. The representation, however, as far as it relates to voting, shall be so divided that no one Union shall be entitled to over one-half of the total vote.

7. In voting on matters coming before the joint conference board, the representatives of the various international unions shall vote for and bind their unions, and such vote shall be so under-

stood and accepted by the joint board and shall not be reconsidered without the unanimous consent of the membership of the board.

8. The representatives of all organizations named in this agreement must file an opinion in the case with the secretary-treasurer of the joint conference board within thirty days after his submission of the documents in each appeal case, and must register their votes on the appeal within thirty days after said opinions have been compiled by the secretary-treasurer and submitted to the board for final action. The opinion and vote in each case shall be filed separately.

9. When a tie vote results on any question submitted to the joint conference board under the terms of this agreement, the president may call a meeting of the board for further consideration of the matter. If the case cannot be satisfactorily adjusted at such meeting a disinterested party shall be unanimously selected to act as arbitrator, and his decision shall be final.

10. In appeals to the joint conference board from the decision or action of any local allied council, as permitted by this agreement, the representatives of the

protesting local union must file notice of intention to appeal within ten days with the officers of the local allied council. Appellant must prepare and forward to the secretary-treasurer of the joint conference board, within thirty days after action complained of is taken, ten typewritten copies of the appeal papers, serving one copy on the president of the interested allied council. The allied council shall have an additional thirty days in which to file ten typewritten copies of its answer. The secretary-treasurer of the joint conference board shall, when the papers are complete in each case, forward one copy of the papers to each member of the joint conference board, and further procedure shall be in accordance with the provisions of sections 8 and 9. When a decision is reached the secretary-treasurer shall furnish the appellant and appellee with a copy thereof. Members of the joint board shall also be notified by the secretary-treasurer of the result of the vote on each appeal.

II. Each organization shall pay the incidental expenses of the Joint Conference Board in proportion to its representation, and pro rata of all expenses necessary in the advancement of the

Allied Trades Council label and general work of said Joint Conference Board.

Allied Printing Trades Councils.

12. In localities where there are Unions chartered by two or more of the organizations, parties to this agreement, a local Allied Printing Trades Council shall be formed. Should any such chartered Union decline to form an Allied Printing Trades Council, the aggrieved Union or Unions shall be allowed an appeal on this question to the Joint Conference Board.

13. Allied Printing Trades Councils shall be composed of three delegates from each local Union holding a charter from one of the parties to this agreement. No local union, regardless of the jurisdiction claimed, shall have both voice and vote in more than one allied council. Unions having jurisdiction over more than one city or town in which allied trades councils exist shall have voice and vote in one allied council only, but may be represented, and shall have a voice, in the rest.

14. Each delegate present at any meeting of the Allied Printing Trades Council shall be entitled to one vote; provided, that a roll call may be demanded

by the representatives of any Union on a question of the raising of revenue or the election of officers, and on such roll call each Union shall be entitled to additional votes as follows: For fifty (50) members, of the local Union represented, one vote; for each additional fifty (50) members or major fraction thereof, up to three hundred (300) members, one vote; for the next two hundred (200) members or major fraction thereof, one vote; for each additional five hundred (500) members or major fraction thereof, one vote; the membership to be computed in accordance with the last per capita tax paid by each local Union.

15. Allied Printing Trades Councils may elect such officers and adopt such provisions and rules for their own government as are not in conflict with this agreement, or the laws of the organizations, parties hereto, but no more than one officer may be chosen from the representatives of one local Union except by unanimous consent.

16. The powers of Allied Printing Trades Councils shall not exceed those specified in this agreement, and such Councils shall not take hostile action of any character, except by unanimous

consent of the Unions represented therein.

17. Any local Union may request the assistance of the Allied Printing Trades Council in the adjustment of any difficulty that may arise. Upon failure of the Council to effect a settlement, and should a joint or sympathetic strike be desired, the question shall be referred to the local Unions for action in accordance with the laws of their respective International Unions.

18. Should an Allied Printing Trades Council refuse to abide by the decision of the Joint Conference Board, it shall be dissolved, and the Unions affiliated therewith instructed by their international officers to form a new Council on the basis of the decision of the Joint Conference Board.

Allied Printing Trades Council Union
Label.

19. The I. T. U. shall procure and hold all Allied Printing Trades Council Union Labels, and shall loan same to Local Allied Printing Trades Councils as its agents, in accordance with the terms of this agreement, upon receipt of a sum of money from the local Council

not exceeding ten per cent. above the cost of production and distribution of said labels.

20. No Allied Printing Trades Council shall issue any label not procured from the I. T. U., nor any label differing in design from the label now known and registered as the Allied Printing Trades Council Union Label, nor duplicate, nor allow the duplication of said label, except in the case of stereotyped or electrotyped forms, in which case the label appearing in the plate or plates shall be destroyed immediately on completion of the work on which it is used.

21. No other body than the local Allied Printing Trades Council shall be allowed to grant the use of the Allied Printing Trades Council Union Label in any jurisdiction. Provided, that the Joint Conference Board may order the issuance or withdrawal of the label, or issue said label direct, where in its judgment such action is necessary.

22. All labels must be procured by local councils from the secretary-treasurer of the International Typographical Union. Any infraction of this rule shall be deemed sufficient cause for the dissolution of the local council so offending.

23. Labels shall be loaned only with the unanimous consent of Unions represented in the Allied Printing Trades Council. Unions objecting to the issuance of the label in any instance must produce a valid reason for such objection, the Council to be the judge of the validity of such reason, subject to appeal to the Joint Conference Board.

24. In regard to label issuance, should any Union chartered by a party to this agreement feel that an injustice has been done it, or should any local Allied Printing Trades Council feel that the action of any such Union is detrimental to the best interests of the Council, an appeal may be taken to the Joint Conference Board under such provisions as may be adopted by said Board.

25. Wherever an Allied Printing Trades Council is in existence, the local Unions affiliated therewith shall withdraw the label of their respective Unions, unless otherwise decided by the Joint Conference Board.

Miscellaneous.

26. When a sympathetic strike shall have been inaugurated by the parties to this agreement, the initiating Union shall pay those involved as

follows: The sum of seven (\$7.00) dollars per week to each married man involved, and five (\$5.00) dollars per week to each single man or woman involved, for the period of eight weeks, unless settlement is sooner effected.

27. When a joint demand is made, involving either a question of wages or hours, all conferences and business with the proprietors relative thereto shall be conducted by joint committees of parties to this agreement, and in case a strike or lockout shall result, each union shall provide strike benefits for its own members, and shall have no financial recourse on any of the allied unions.

28. This agreement may be altered or amended on motion of any one organization, party to this agreement, and if said motion receives the unanimous consent of the other parties hereto.

Unanimous Decisions of the Joint Conference Board.

DECISION No. 1.

The allied trades label shall not be primarily used for organization purposes nor for the enforcement of an initial wage scale.

DECISION No. 2.

No local union, regardless of the jurisdiction claimed, shall have both voice and vote in more than one allied trades council. Unions having jurisdiction over more than one city or town in which allied councils exist shall have voice and vote in one allied council only, but may be represented, and shall have a voice only, in the rest.

DECISION No. 3.

An allied printing trades council must be formed, in accordance with the joint agreement, and the allied label issued, where it can be conclusively shown that all interested unions have an established wage scale and control 70 per cent. of the employees at their branch of the trade.

DECISION No. 4.

The provisions of a contract entered into prior to the effective date of the joint agreement must be observed until the expiration of the contract, unless said contract is mutually abrogated at an earlier date.

DECISION No. 5.

In offices having more than two platen presses, members of the typographical union shall not do press work; but said offices shall not be compelled to employ a pressman except when there is press work to do.

DECISION No. 6.

Where the typographical union has verbal or written contracts with employers guaranteeing the use of the typographical label for a stipulated time, said contracts antedating the formation of the allied trades council, the best interests of all concerned will be conserved by allowing the use of the allied label to such offices until the expiration of the contracts, and that then the provisions of the joint agreement shall apply.

DECISION No. 7.

The allied printing trades label shall not be placed on work sub-contracted by label offices from non-label offices.

AGREEMENT

BETWEEN

The International Printing Pressmen and Assistants' Union and the International Stereotypers' and Electrotypers' Union.

The International Printing Pressmen and Assistants' Union and the International Stereotypers' and Electrotypers' Union, for the purpose of providing a more equitable method of adjusting disputes which have arisen relative to jurisdiction, and in order to permanently provide for the affiliation of the members who rightfully belong to each Union and also to encourage and develop the true Brotherhood which should exist between the members of trade Unions so closely allied, hereby make the following agreement:

WITNESSETH:

First—In a jurisdiction where both parties to this agreement have local Unions, or in a locality, or in an office where Union conditions at present prevail, neither organization shall recognize a "combination situation," nor permit its members to hold such a situation, except by the sanction of both Unions officially

granted by the International Presidents thereof.

Second—For the purposes of this agreement a “combination situation” shall be construed to mean a situation held by a member of one of the Unions, party to this agreement, who in addition to performing the work of his own craft, also performs work which properly belongs to, or is under the control or jurisdiction of the other Union party to this agreement.

Third—It is conceded by both parties hereto that in establishments where press work and stereotyping or electrotyping is done at least one journeyman member of each Union should be employed.

Fourth—All other jurisdictions, localities or offices in North America, except as specifically mentioned in Section 1, shall be temporarily recognized by both parties to this agreement as open territory, it being agreed that the two Internationals shall by executive action as speedily as conditions will permit close up all such jurisdictions, or localities, and after the date jointly agreed upon when such jurisdictions or localities shall be officially closed, no member of

either Union shall be permitted to hold any such "combination situation."

Fifth—The Presidents of both Unions, parties to the agreement, shall be authorized on behalf of their respective Unions to close up at their discretion any jurisdiction or locality; such action shall not be binding, however, until an official circular letter jointly signed by both is issued to the membership of local Unions affected.

Sixth—It is further agreed that when a decision has been arrived at by the authorized representatives of the parties to this agreement and when a working policy is determined, the expense of such shall be borne equally by the two International Unions, parties hereto.

Seventh—It is further agreed that contracts now in operation between either of the organizations to this agreement and publishers or employers, shall not be affected by the terms of this contract, provided they were made prior to the signing of this agreement.

Eighth—Both Unions agree that they will make every effort to abate the abuses which this agreement is intended to correct, and will sincerely co-operate to obtain the ideal conditions which should exist, and recommend that in all

jurisdictions co-operation as above outlined should prevail.

Ninth—This agreement becomes effective when approved by both Unions as their laws direct, and may be amended by consent of both parties, remaining in effect until either party officially notifies the other of its desire for abrogation.
